IoT/M2M Data Plan
## Skywire™ Data Plan & Pricing

Verizon Coverage

LTE Coverage

1xRTT & EVDO Coverage

NimbeLink has flexible Verizon data and SMS plans for IoT and M2M applications. The Verizon network supports LTE, EVDO, and 1xRTT technologies. See coverage maps below. Save time and money by leveraging Nimbelink's Verizon data plans on your product and we can even help you migrate to a Verizon direct account when the time is right for you.

Activation Process

1. Visit go.nimbelink.com to activate your devices.
2. Confirmation is immediate.
3. Send modem over The Air Service Provisioning (OTASP) command, typically ATD*22899;
4. See development kit user manual for detailed instructions
