

RECON13™ 5G

The Industry's Most Rugged,
Versatile and Low Profile
13-in-1 Antenna

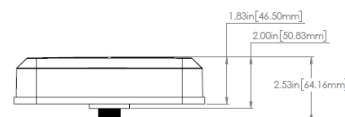

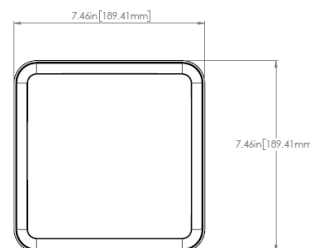

RECON13™ delivers high-performance LTE and 5G connectivity in a sleek, ultra-low-profile form ideal for fleet and public safety vehicles. With up to 13 ports and IP67/IP69K ingress protection, it supports virtually any vehicular router or modem—even in the harshest environments.

HIGH PERFORMANCE

Highly efficient and future proof with 5G & Wi-Fi 7

- Powerful MIMO technology
- Up to 4 x LTE/5G (600 MHz - 6 GHz) elements
- Up to 8 x Wi-Fi 6/6E/7 (2.4 & 5-7 GHz) elements
- Optional GNSS element for global positioning

SLEEK & RUGGED

Built to withstand the toughest environments

- IP67 and IP69K ingress protection
- Resistant to vibration, hot, cold, ice, salt, dirt, car washes, and tree branch sweeps
- Ultra-low profile for covert operations
- Available in both black and white color
- Industry best 5-year limited warranty

VERSATILE

Maximum flexibility to meet your needs

- Compatible with most vehicle routers or modems
- EZConnect™ harness enables quick cable swaps
- Performs well even on non-metallic surfaces
- Pre-attached mounting foam fits any vehicle roof
- Optional whip antenna adapter available
